Stanislaus Spirit

THE influence of Stanislaus has created among its students an atmosphere that exists not only while school is in session but also during vacation periods and when the student has become an Alumnus of Stanislaus. This STANISLAUS SPIRIT while hard to define, has nevertheless a real existence known to all who come in contact with the Sons of Stanislaus. It is the spirit that exists on the athletic field, demanding always clean, hard and fair play. It is the spirit that makes them accept victory or defeat with true sportsmanship. It is the spirit that has made hazing an unknown thing at Stanislaus. It is the spirit that calls for fair play and sincerity in all dealings with each other and with the Faculty. It is the spirit that makes the boy respected by others as he respects himself, that makes the quitter and the cheat looked down upon, and the strong clean boy a recognized leader.

This Stanislaus Spirit is making the Alumni put forth every effort to send their own and other boys to enjoy the advantages that they enjoyed in their Stanislaus Days. The social and athletic activities all help to develop and vivify this spirit. This Stanislaus Spirit plays a definite role in the character-training that is the highest aim of Stanislaus.

The League of The Sacred Heart

THE College being directed by the Brothers of the Sacred Heart, they naturally strive to make a manly devotion toward that Divine Heart a distinguishing mark of their students. Among the means to accomplish this end the League of the Sacred Heart holds a leading place. The College has been canonically created a Local Centre, and all the Catholic students, without a single exception, are members of this meritorious association. The good wrought during the past years has been a matter of deep consolation, and the Brothers attribute to a great extent, the exemplary conduct and Catholic spirit among their students to the blessings radiating from that benign Heart.
